Opportunity for Professional Sales Representatives

We are offering a new sales opportunity for professionals who are servicing building projects, electrical projects, OEM's, automation projects, and more.

Our offering provides a full line of opportunities in Wire/Cable, Cable Trays and many other electrical installation products. Projects we service best range from Electrical Installations of Fortune 1000 companies to servicing local Electrical Contractors, OEM's, MRO, Utilities, Mining, Automotive, Robots, Automation, Chemical Industry, Alternative Energies, Industrial Production, Telecom and many others.

Basically, we Provide Solutions for all Electrical Power and Control Projects.

To expand our network, we are seeking individuals and/or companies to join our network.

Our clients value us for what we do and who we are. We are looking back to many success stories in the industry and want to expand our sales network.

As a key example of how we provide value to our clients, please see the following short advertisement, which is based on real life experience:

47% Electrical Installation Savings

- Cost reduction by exposed run approved cables and cable trays
- Flexible, easy to install cables
- NEC conform and UL approved solutions

If you feel this is something you could sell and produce value for yourself, your clients and your future, please continue reading.

NOBEL Service Supply invented and lives the term: **Reverse Representation™**. With focus on the end customers we offer open minded application and supply chain solutions, contributing to our customer's success by providing solutions with value in the areas of application needs, product fulfillment cycles, installation time and implementation cost. Hence:

“We service electrical installations as a whole”

“We are not limited to a line card”

“We service and supply for the entire electrical installation requirements”

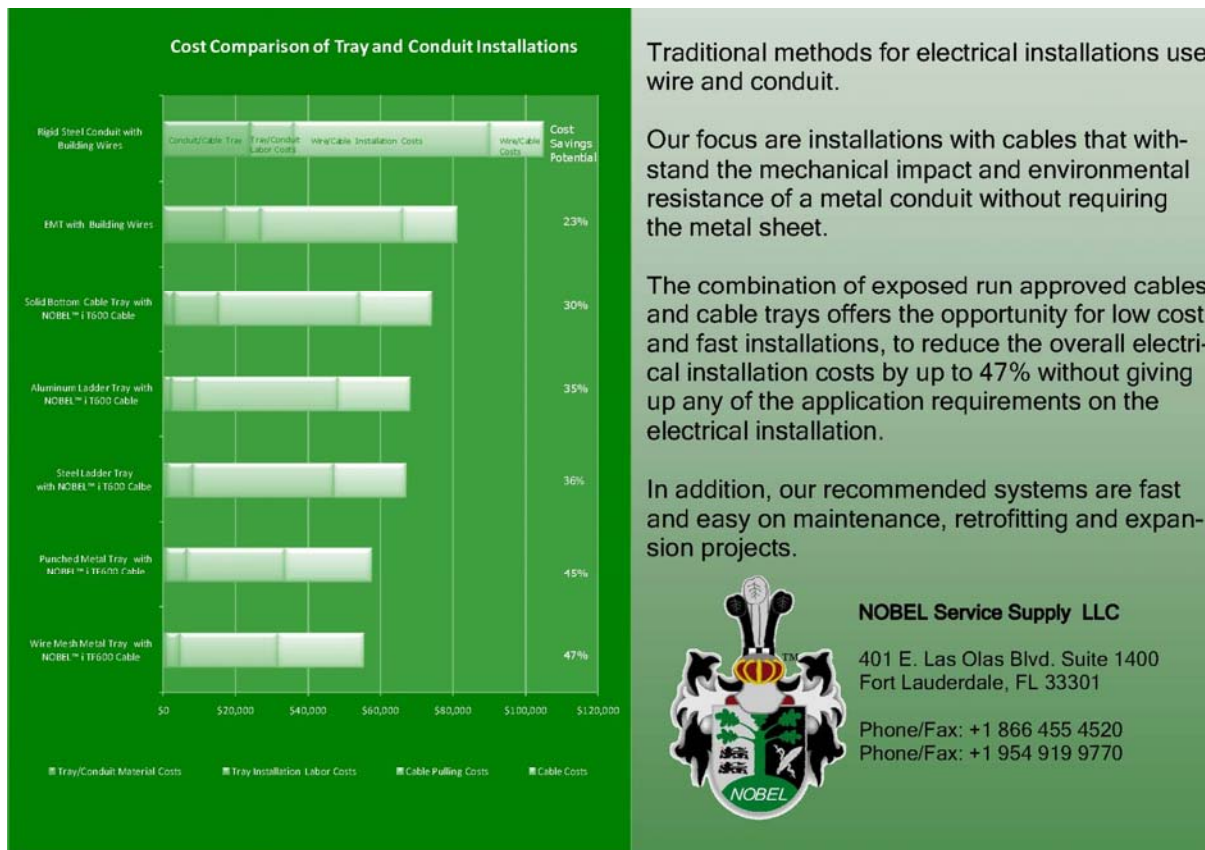

We offer you to be in business for yourself - Not By Yourself!

- **NOBEL Service Supply will give you access to all cable configurations and opportunities.**
- We support in all sales efforts and offer a new 340 page branded online catalog, continues education and training and project support.
- **We make you competitive in the wire and cable offering due to low overhead cost and by integrating our new sales reps into a successful working team.**
- In case you already represent a cable line, stay loyal to your commitments, we support you to make a full range offer with cable configurations you so far had no access to.
- **Hence, whenever you spot a wire and cable opportunity, do not let it go by, we design and provide a competitive offer with you.**
- We are seeking sales representatives who want to participate and share profits attained 50/50 with us.
- **Midterm, we are also willing to build a business and local presents with successful sales individuals so desired.**

Our core focus are clients at various levels of the electrical installation chain, like:

- Contractors (installation projects for plant expansion and installation of warehouses. Thos project reach from food/beverage via cement plants to automotive and alternative energy).
- OEM's and first tier suppliers of machinery and assembly lines
- MRO (plant maintenance and rewiring)
- Others like: automated warehouses, power plants, mining industries and many more

We can prove our arguments with documented success:

Traditional methods for electrical installations use wire and conduit.

Our focus are installations with cables that withstand the mechanical impact and environmental resistance of a metal conduit without requiring the metal sheet.

The combination of exposed run approved cables and cable trays offers the opportunity for low cost and fast installations, to reduce the overall electrical installation costs by up to 47% without giving up any of the application requirements on the electrical installation.

In addition, our recommended systems are fast and easy on maintenance, retrofitting and expansion projects.

NOBEL Service Supply LLC

401 E. Las Olas Blvd. Suite 1400
Fort Lauderdale, FL 33301

Phone/Fax: +1 866 455 4520
Phone/Fax: +1 954 919 9770

In case you already represent parts of a cable/cable tray/connector or other potentially conflicting lines, we sure do not want to create a conflict and help you to stay loyal in your commitments by finding ways to bundle assortment offerings, valuing your lines represented.

What are we looking for? We have been successful in landing big business opportunity and now want to expand our business platform by:

- seeking individuals or companies who strive to convince customers at electrical installation projects.

- focused work, selling experience, highly adoptive and trainable, good reporting skills to be able to support servicing local needs. Loyalty in building seeking a long term business relationship.

Our new catalog which offers the entire range of cables, cable trays and installation products needed is available online and updated constantly. Please check: <http://www.nobelcatalog.com>.

Our Support and Offering

- we provide a marketable brand and catalog for Electrical Installation Solutions, including selection tables and a full education program of Dr. Nobel.
- weekly education programs to train in wire/cable/cable-trays
- project support (remote and on site)
- financing and organizing of supply and bundling of orders
- offering for the entire electrical installation demand of a customer out of one hand
- modern web meetings and support
- business backup with call lines 8-8 EST
- lead generation programs
- building with you and affiliate of NOBEL Service Supply, LLC

We are driving innovations and bring world leading economical and ecological solutions to our customers. Whatever installation solution a client prefers, we can bring the right solution without any line card limitations.

What we expect from our sales team, is to get business closure. Hence we are looking for:

- Fighting spirit and get it done attitude
- Selling experience and willingness to adopt to new sales models
- Teachable individuals who want to learn new convincing arguments
- Good field reports, putting us in the position to tailor to the needs of our clients
- Loyalty and interest in a long term relationship

If you like what we stand, give, share and expect, please respond in giving us a proposal of how we can work together and from there we jointly develop a first business plan (or provide us your ideas of one). For all other interests, we are happy and open for your feedback.

At any time just contact us at: contact@NOBELservicesupply.com and if you are interested in a joint venture with us, please provide us with some of your credentials.

We are looking forward hearing from you.

Best regards,

Thomas F. Barmann
